Smart Temperature&Humidity Sensor (ZigBee)

Product Introduction

This temperature and humidity sensor offers real-time monitoring to help users enhance indoor comfort and air quality. With its sleek design and easy installation, it's ideal for various scenarios. including homes, offices, and hotels, allowing you to stay informed about your home effortlessly.

Features

- Display real-time temperature and humidity on the screen
- Ultra-low power consumption with long battery life
- Easy installation with no wiring required
- Sleek, stylish design.

Specification

- Model: MIR-TE100
- Communication Protocol: ZigBee 3.0
- Input Voltage: 3V/DC
- Low Voltage Alarm Threshold: 2.5V ± 0.2V
- Standby Current: ≤30μA
- Operating Current: ≤30mA
- Battery Type: 2 AAA batteries

- Battery Life: Over 1 year (with 20 uses per day)
- Operating Humidity: 0% to 99.9%
- Operating Temperature: -10°C to 55°C
- Installation Method: Wall-mounted
- Dimensions: Φ61 x 23 mm
- Certification: CE

Networking method

1. Open the device's back cover and insert the batteries to power it on.
2. Press and hold the reset button for about 5 seconds until the indicator light flashes rapidly, indicating it has entered pairing mode.
3. Add the device to the network using the gateway.
