Smart Scene Button (ZigBee)

Product Introduction

This smart scene button utilizes ultra-low power ZigBee technology, serving as both an emergency button and a trigger for home automation scenes.

Features

- **One-touch emergency alert**
- **One-touch automation scene trigger**
- **Ultra-low power consumption with long battery life**
- **Easy installation with no wiring required**
- **Sleek and stylish design**

Specification

- Model: MIR-SO100
- Communication protocol: ZigBee 3.0
- Input voltage: 3V/DC
- Low voltage alert threshold: 2.6V ± 0.2V
- Standby current: ≤5µA
- Operating current: ≤30mA

- Battery type: CR2032
- Battery life: Over one year (20 uses/day)
- Operating temperature: -10 to 55°C
- Installation method: Ceiling or wall mount
- Dimensions: Φ50×16mm
- Certification: CE

Networking method

1. Use a thin tool to open the device's back cover and remove the insulation sheet to power on the device.
2. Press and hold the reset button for about 5 seconds until the indicator light flashes rapidly, indicating that it has entered pairing mode.
3. Add the device to the network via the gateway.
