

Product Introduction

This battery-powered scene panel eliminates the need for wiring and can be easily placed or mounted anywhere in the home. By connecting to the gateway through the ZigBee protocol, it enables one-touch control of scenes or devices, offering a seamless and convenient smart home management experience.

Features

- Smooth, fingerprint-resistant AG glass
- Support scene or device linkage
- Available in 2 colors, with the option of 4/6 buttons.
- Battery-powered, no wiring required
- Ultra-low power consumption design

Specification

- Product Model: WLS-4G/WLS-6G
- Operating Voltage: 3.3V
- Communication Protocol: ZigBee 3.0
- Battery Model: CR2032
- Battery Life: 3 years (10 times/day)
- Button Indicator: White (On) / Orange (Off)
- Operating Temperature: -10°C~60°C
- Operating Humidity: 0 ~ 95% (non-condensing)
- Service Life: $\geq 100,000$ operations
- Certification: CE

Networking

- 1、 Press and hold any button for about 10 seconds until the device indicator flashes rapidly, indicating that it has entered the network pairing mode.
- 2、 Add the device to the network through the gateway device.
