

# **Intercom Function of Akuvox Video Phone**

www.akuvox.com

techsupport@akuvox.com

## 1. Instruction

Intercom allows user to establish a call directly with the callee. It is convenient for the people who works in a small scale. It is used to answer the incoming call automatically after users set up the intercom function.

In this feature guide , we use Akuvox R4X Video Phone and Elastic SIP server as an sample.

## **2.Enable Intercom function**

Please enable Intercom function from the web or phone.

- 1. Enable from Phone: go to the path: Phone Setting-Call Setting-Intercom. Tick to enable Intercom function;
- User can set the phone to enable mute mode when picking up the intercom call so that the other will not hear you;

< Setting		✓ Save
💄 Account Manager	Call Waiting off Code	
Audio Settings	Intercom	
🖿 Video Settings	Intercom Active	
📞 Call Settings	Intercom Mute Hotline	
🌜 Dial Plan	Hotline Active	
Auto Provision	Hotline Number	
Personalize	Hotline Delay Time(s)	4

3. Enable from website: go to the path: Phone-Call Feature.

	Intercom	
Active	Enabled	•
Intercom Mute	Disabled	•

**Note:** If the user is only a receiver , no need to setup the intercom value as the below steps.

### **3.Setup Intercom Value**

#### Configure from the website

- 1. Go to the website Phone-Ext Key;
- 2. Setup the key type as Intercom;
- Setup the intercom code+number(\*800 is intercom code, 307 is the callee number as below picture)in the value areas;

**Note:** Different SIP server has different Intercom code, users need to consult the administrator for more information;

4. Select the viable account from Account list;

kt Key					
		E	xt Key		
Current Page Pre 1 Vext					
Кеу	Туре	Label	Value	Account	Extension
Key 1	Intercom 🔹	test1	*800307	Account 1 🔻	
Key 2	N/A 🔻			Account 1 🔻	
Kev 3	N/A T			Account 1 V	

5. Click Submit to save.

#### **Configure from the Phone**

- 1. Enter the Dial interface;
- 2. Click Ext Key button to enter Ext setting interface;
